## UNIQUE ACCESSORIES

Nikky d'Aguilar is an artist with a passion for flowers. She lives on Bardowie Loch in the West of Scotland and her inspiration comes from the lush colours in her garden, created by the heavy rainfall in the area. She paints fast, using oils like watercolours and working the paint on the canvas to create energetic, vibrant pieces. Nikky d'Aguilar's cushions, lampshades and statement pieces of furniture are made by printing her paintings onto a linen fabric using reactive dyes. The cushions are filled with high quality duck feather pads and everything is made by hand locally in Scotland. The company's current range comprises of five paintings, but a bespoke service is available.

## OXLEY'S OUTDOOR FURNITURE

For the 2012 outdoor season Oxley's Furniture are launching a beautiful and romantic range of furniture which is made by Sika Design of Denmark. The collection has been created from 1920's drawings and postcards of wicker furniture in the classic English garden on blissful summer days. The furniture is made for the real English weather so whilst being lightweight, it is constructed of extremely strong, maintenance free synthetic fibres which are woven on welded aluminium frames. It will stay unaffected by outside conditions year after year. A table and four chairs is £1,675 and a Sunlounger £895.
